Independent Auditor's Report

Independent Auditor's Report

The Honorable Village President
and Board of Trustees
Village of Inverness, Illinois

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Village of Inverness, Illinois, as of and for the year ended April 30, 2013, and the related notes to the financial statements, which collectively comprise the Village's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Village of Inverness, Illinois, as of April 30, 2013, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information:

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis (pages 3 - 10), budgetary comparison information (page 32), and pension information (page 33) be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information:

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village's basic financial statements. The Other Supplementary Information (pages 35 - 43), and the Introductory and Statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Other Supplementary Information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Other Supplementary Information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Introductory Section and Statistical Section have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Management's Discussion and Analysis

Village of Inverness, Illinois

Management's Discussion and Analysis For the Fiscal Year Ended April 30, 2013

The Village of Inverness' Management's Discussion and Analysis is designed to explain significant financial issues, provide an overview of Village financial activity, identify changes in the Village's financial position, identify material deviations from budget, and identify individual issues and concerns.

This document should be read in conjunction with the financial statements.

FINANCIAL HIGHLIGHTS

Net Position

The Village's total net position of governmental activities increased by \$636,158 or 12% as a result of this year's operations. The Village does not conduct any business-type activities.

Revenues

The governmental activities revenues totaled \$4,524,604.

Cost of Village Programs

The governmental activities expenditures totaled \$3,888,446.

General Fund

The General Fund reported revenues of \$3,395,960 and expenditures of \$3,051,669, resulting in an operating surplus of \$344,291.

USING THIS ANNUAL REPORT

In the past, the primary focus of local government financial statements was summarized by fund type and presented on a current financial resource basis. Now, financial statements are presented from two perspectives: government-wide and major fund. These perspectives allow the user to address relevant questions, broaden a basis for comparison and enhance the Village's accountability.

Government-Wide Financial Statements

The government-wide financial statements are designed to emulate the corporate sector in that all government and business-type activities are consolidated into columns, which add to a total for the Primary Government. In the case of the Village, there are currently no activities that are classified as business-type. The focus of the Statement of Net Position (the "Unrestricted Net Position") is designed to be similar to bottom line results for the Village and its governmental-type activities.

This statement combines and consolidates the governmental funds' current financial resources (short-term spendable resources) with capital assets and long-term obligations using the accrual basis of accounting and economic resources measurement focus.

The Statement of Activities is focused on both the gross and net cost of various governmental activities, which are supported by the government's general taxes and other resources. This is intended to summarize and simplify the user's analysis of the cost of various governmental services.

Village of Inverness, Illinois

Management's Discussion and Analysis (Continued)

For the Fiscal Year Ended April 30, 2013

The Governmental Activities reflect the Village's basic services, including general government, public safety and public works. Property taxes, investment income, shared state income taxes and sales taxes finance the majority of these services.

Fund Financial Statements

Traditional users of governmental financial statements will find the Fund Financial Statements presentation more familiar. The focus is on Major Funds, rather than the previous model's fund types.

The Governmental Major Fund presentation is presented on a sources and uses of liquid resources basis. This is the manner in which the budget or financial plan is typically developed. The flow and availability of liquid resources is a clear and appropriate focus of any analysis of a government. Funds are established for various purposes and the Fund Financial Statements allow the demonstration of sources and uses and/or budgeting compliance associated therewith.

Infrastructure Assets

The Village implemented the infrastructure portions of GASB 34 prospectively and depreciates assets over their useful lives.

GOVERNMENT-WIDE STATEMENT

Net Position

Net position is defined as the amount by which assets exceed liabilities. Net position can be a useful indicator of a government's financial condition. Assets exceeded liabilities by \$5,979,948 as of April 30, 2013. This is an increase of \$636,158 or 12% over the prior year.

Statement of Net Position As of April 30, 2013 and 2012

	Governmental		
	Activities		
	2013	2012	Change
Current and other assets	\$ 9,243,886	\$ 9,244,821	\$ (935)
Capital assets	4,869,369	4,907,337	(37,968)
Total assets	14,113,255	14,152,158	(38,903)
Current liabilities	1,103,407	1,237,477	(134,070)
Noncurrent liabilities	7,029,900	7,570,891	(540,991)
Total liabilities	8,133,307	8,808,368	(675,061)
Net Position			
Net investment in capital			
assets, net of debt	4,869,369	4,901,442	(32,073)
Restricted	1,025,721	1,383,565	(357,844)
Unrestricted	84,858	(941,217)	1,026,075
Total net position	\$ 5,979,948	\$ 5,343,790	\$ 636,158

Village of Inverness, Illinois

**Management's Discussion and Analysis (Continued)
For the Fiscal Year Ended April 30, 2013**

A portion of total net position constitutes investment in capital assets net of accumulated depreciation. For governmental activities, capital assets include land, buildings, improvements other than buildings, vehicles and equipment.

There are six basic (normal) transactions that will affect the comparability of the Statement of Net Position summary presentation.

- 1) Net Results of Activities – which will impact (increase/decrease) current assets and unrestricted net position.
- 2) Borrowing of Capital – which will increase current assets and long-term debt.
- 3) Spending Borrowed Proceeds on New Capital – which will reduce current assets and increase capital assets. There is a second impact, an increase in invested in capital assets and an increase in related net debt which will not change the invested in capital assets, net of debt.
- 4) Spending of Non-borrowed Current Assets on New Capital – which will (a) reduce current assets and increase capital assets and (b) reduce unrestricted net position and increase invested in capital assets, net of debt.
- 5) Principal Payment on Debt – which will (a) reduce current assets and reduce long-term debt and (b) reduce unrestricted net assets and increase invested in capital assets, net of debt.
- 6) Reduction of Capital Assets through Depreciation – which will reduce capital assets and investment in capital assets, net of debt.

As indicated above, governmental net position increased by \$636,158 or 12%.

Village of Inverness, Illinois

Management's Discussion and Analysis (Continued)
 For the Fiscal Year Ended April 30, 2013

The following table compares revenue and expenses for the current and prior year:

Statement of Activities
 Years Ended April 30, 2013 and 2012

	Governmental Activities		
	2013	2012	Change
Revenues			
Program Revenues			
Charges for service	\$ 528,034	\$ 507,836	\$ 20,198
Grants and contributions			
Operating	210,226	219,618	(9,392)
General Revenue			
Property taxes	2,708,911	2,702,406	6,505
Other taxes	888,949	793,810	95,139
Annexation fees	12,000	10,500	1,500
Franchise fees	154,755	166,168	(11,413)
Investment income	11,659	10,133	1,526
Miscellaneous	10,070	10,417	(347)
Total Revenue	4,524,604	4,420,888	103,716
Expenses			
General Government	905,429	958,619	(53,190)
Public Safety	1,560,549	1,505,922	54,627
Public Works	1,108,385	2,815,825	(1,707,440)
Interest	314,083	328,217	(14,134)
Total Expenses	3,888,446	5,608,583	(1,720,137)
Change in Net Position	636,158	(1,187,695)	1,823,853
Net position - beginning	5,343,790	6,531,485	(1,187,695)
Net position - ending	\$ 5,979,948	\$ 5,343,790	\$ 636,158

There are eight basic impacts on revenues and expenses as reflected below:

Revenues:

- 1) Economic Condition – which can reflect a declining, stable or growing economic environment and has a substantial impact on state income, sales and utility tax revenue as well as public spending habits for building permits, elective user fees and volumes of consumption.
- 2) Increase/Decrease in Village Board Approved Rates – while certain tax rates are set by State statute, the Village Board has significant authority to impose and periodically increase/decrease rates (property taxes, impact fees, building permit fees, telecommunication taxes and home rule sales tax, etc.).

Village of Inverness, Illinois

Management's Discussion and Analysis (Continued)

For the Fiscal Year Ended April 30, 2013

- 3) Changing Patterns in Intergovernmental and Grant Revenue (both recurring and non-recurring) – certain recurring revenues (state share revenues, etc.) may experience significant changes periodically while non-recurring (or one-time) grants are less predictable and often distorting in their impact on year-to-year comparisons.
- 4) Market Impacts on Investment Income – the Village's investment portfolio is managed using a similar average maturity to most governments. Market conditions may cause investment income to fluctuate.

Expenses:

- 1) Introduction of New Programs – within the functional expense categories (General Government, Public Safety and Public Works) individual programs may be added or deleted to meet changing community needs.
- 2) Increase in Authorized Personnel – changes in service demand may cause the Village Board to increase/decrease staffing. Staffing costs represent approximately 29% of all governmental activities.
- 3) Increases in Contractual Services – the Village relies heavily on contractual agreements for the delivery of services. Scheduled increases for certain public works activities may have an impact on overall expenses based on their significance to basic operational programming.
- 4) Inflation – while overall inflation appears to be reasonably modest, the Village is a major consumer of certain commodities such as supplies, fuels and parts. Some functions may experience unusual commodity specific increases. In addition, inflationary factors will impact costs associated with contractual service agreements.

Revenues

For the fiscal year ended April 30, 2013, revenues from all governmental activities totaled \$4,524,604. This is a 2% increase or \$103,716 over the prior year. This slight increase was generally the result of the Village receiving increased state income tax revenues and greater fees related to development related activities in the Village. This is the second year that the Village has seen upward movement in these revenue sources and may provide cautious optimism that economic conditions are improving.

Expenses

Total expenses for all governmental activities for the year ended April 30, 2013 were \$3,888,446. This was a decrease of \$1,720,137 or 31% from the previous year. This change is the result of a planned reduction in the scope and cost of the annual road program from the prior year. Total program expenses decreased from \$2,306,720 in 2012 to \$497,384 in 2013. This program is funded by proceeds from the 2008 GO Bond issue and those proceeds were essentially depleted during the year. Only \$10,456 remains and that will be fully expended in FY 14. Removing the annual road program from the analysis, expenses were up \$89,199 or 4% over the prior year.

Village of Inverness, Illinois

**Management's Discussion and Analysis (Continued)
For the Fiscal Year Ended April 30, 2013**

FINANCIAL ANALYSIS OF THE VILLAGE'S FUNDS

Governmental Funds

The focus of the Village's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At year end, governmental funds reported a combined fund balance of \$7,396,308. This is a 1% increase from the prior year's ending combined fund balance of \$7,289,873.

Total revenues for Governmental Funds for fiscal year 2013 were \$4,480,945. This was an increase of \$176,314 over the prior year's revenues. General Fund revenues were \$3,395,960, which was \$161,494 higher than the prior year. As mentioned previously, this increase may reflect the beginning of a reversal of economic trends affecting the Village's finances. It is still too soon to speculate whether this is an actual trend or a short term adjustment.

Total expenditures for Governmental Funds for the year ended April 30, 2013, were \$4,374,510, which was a decrease \$1,704,780 over the previous year. Again, this essentially reflects the reduced scope of the Village's road rehabilitation program as available bond proceeds have been depleted. General Fund expenses were \$3,051,669 compared to FY12 expenses of \$2,957,500. Most of this is attributable to higher personnel related expenses. While higher, it should be noted that actual General Fund expenses were \$274,431 less than the approved budget. This positive result at year end again represents conservative financial planning on the part of the Village's elected leadership combined with successful targeted cost containment practices. Significant program costs, aside from the road rehabilitation project, that were undertaken this year include: \$1,571,577 for police operations, \$ 151,767 for residential solid waste disposal and \$408,120 for snow removal, general road maintenance activities and forestry.

**General Fund Budgetary Highlights
Year Ended April 30, 2013**

General Fund	Original and Final Budget	Actual	Over/ Under
Revenues			
Property taxes	\$ 1,758,800	\$ 1,795,337	\$ 36,537
Other taxes	761,100	884,798	123,698
Grants	-	-	-
Charges for services	216,000	212,296	(3,704)
Licenses and permits	171,000	300,093	129,093

Franchise fees	137,000	154,755	17,755
Interest	10,600	10,966	366
Miscellaneous	5,000	10,070	5,070
Total	3,079,500	3,395,960	316,460
Expenditures	3,326,100	3,051,669	274,431
Change in Fund Balance	\$ (246,600)	\$ 344,291	\$ 590,891

Village of Inverness, Illinois

**Management's Discussion and Analysis (Continued)
For the Fiscal Year Ended April 30, 2013**

General Fund Budgetary Highlights

As of April 30, 2013, actual revenues were \$316,460 more than budget projections. As noted above, actual expenditures were \$274,431 less than the approved budget. The reason for this was referenced above. As a result of better than planned financial performance, the General Fund experienced an increase in fund balance of \$344,291, excluding transfers in of \$149,117. This compared favorably to a budgeted deficit of \$246,600, excluding the same transfer in.

The Village did not revise the total annual operating budget or Appropriation Ordinance during the year. A schedule showing actual expenses compared to budget is presented as supplemental data later in this financial report.

Capital Assets

At the end of fiscal year 2013, the Village had a combined total of capital assets (net of accumulated depreciation) of \$4,869,369 comprised of land, buildings, improvements other than buildings, vehicles and equipment. This amount represents a net decrease (including additions and deletions) of \$37,968 over FY 2012. The Village added one public safety vehicle and a copier representing an addition of \$36,526 in capital assets. A total of \$74,494 was attributed to the depreciation of capital assets held in the prior year. No capital assets were disposed of during the year.

**Capital Assets at Year-End
Net of Depreciation
April 30, 2013 and 2012**

	Governmental Activities	
	2013	2012
Land	\$ 3,597,208	\$ 3,597,208
Buildings	1,004,413	1,034,827
Improvements other than building	192,889	203,310
Vehicles and equipment	74,859	71,992
Total	\$ 4,869,369	\$ 4,907,337

Outstanding Debt

In December 2008, the Village issued \$9,500,000 in GO Bonds to pay the costs of a system wide improvement to the Village's roadway network. These bonds received a rating of AAA from Standard & Poor's, which was subsequently reaffirmed in January 2012. The true interest cost of the issue was 4.0231% over the 15-year debt service schedule. The debt service requirements associated with this issue are outlined in Note 8 of this financial report. Property taxes have been pledged to pay principal and interest on these bonds.

Village of Inverness, Illinois

Management's Discussion and Analysis (Continued) For the Fiscal Year Ended April 30, 2013

Economic Factors and a Look to the Future

The Village continues to plan and operate in a fiscally conservative fashion. This organizational philosophy and practice has enabled the Village to maintain a healthy fund balance to address operational and environmental uncertainties. Currently, the unassigned fund balance for all governmental funds is \$5.7 million. This is approximately 189% of annual operational expenditures and is consistent with the Village's Investment Policy. Unassigned reserves of this amount should provide the Village with the flexibility to "weather" the uncertainties that are the State of Illinois. State revenues account for about 30% of all operating revenues. The potential impact of the state's financial condition on the Village and other local governments has been commented on before. The State's continued inability to solve this financial crisis only heightens this uncertainty. In the event the General Assembly takes steps to reduce or eliminate certain intergovernmental revenues, existing unassigned reserves should be adequate to bridge potential operational deficits in the near term until the Village can adjust to the changing fiscal environment.

Looking forward, the Village will need to explore additional funding sources for future infrastructure maintenance. While the 2008 GO Bond issue, and the subsequent road programs paid for by those bonds, has rehabilitated a large portion of the local road network, there will be a future need for large-scale road resurfacing before the bonds are retired. Accordingly, the Village will need to evaluate alternative or additional financing sources for this purpose. In addition, the Village will need to expend resources on its existing facilities, especially the Village Hall silos. Existing unassigned reserves should be sufficient to pay for these improvements.

Aside from the above issues, there should be a high degree of operational stability over the next several years that should provide financial stability as well.

CONTACTING THE VILLAGE'S FINANCIAL MANAGEMENT

This financial report is designed to provide citizens, customers, investors and creditors with a general overview of the Village's finances and to demonstrate the Village's accountability for the money it receives. Questions concerning this report may be directed to the Village Administrator, Village of Inverness, 1400 Baldwin Road, Inverness, Illinois 60067.

**Reconciliation of the Balance Sheet - Governmental Funds
to the Statement of Net Position
April 30, 2013**

Total fund balances-governmental funds	\$ 7,396,308
--	--------------

Amounts reported for governmental activities in the
Statement of Net Position are different because:

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.	4,869,369
--	-----------

Revenues in the Statement of Activities that do not provide current financial resources are deferred in the funds.	1,319,925
---	-----------

Some assets and liabilities reported in the Statement of Net Position do not
provide current financial resources or require the use of current financial resources
and, therefore, are not reported as assets or liabilities in governmental funds.

These amounts consist of:

Interest payable	(122,738)
Compensated absences	(23,735)
Unamortized bond issuance costs	110,719
Unamortized bond premium	(9,900)
Bonds payable	<u>(7,560,000)</u>

Net position of governmental activities	<u><u>\$ 5,979,948</u></u>
---	----------------------------

Village of Inverness, Illinois

Reconciliation of the Statement of Revenues, Expenditures and Changes
in Fund Balances - Governmental Funds to the Statement of Activities
Year Ended April 30, 2013

Net change in fund balances-total governmental funds	\$ 106,435
--	------------

Amounts reported for governmental activities in the Statement of
Activities are different because:

Governmental funds report capital outlays as expenditures while governmental activities report depreciation expense to allocate those expenditures over the life of the assets. This is the amount by which depreciation (\$74,494) exceeded capital outlay (\$36,526) in the current period. (37,968)

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes current financial resources of governmental funds. These transactions however, have no effect on net position.

Principal retirement - capital lease	5,895
Principal retirement - bonds	515,000

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.

Change in deferred revenues	43,659
-----------------------------	--------

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. These activities consist of:

Decrease in accrued interest	6,437
Decrease in compensated absences payable	6,781
Amortization of bond premium and issuance costs	(10,081)

Change in net position of governmental activities	<u>\$ 636,158</u>
---	-------------------

See Notes to Financial Statements.

Village of Inverness, Illinois

Notes to Financial Statements

Note 1. Summary of Significant Accounting Policies

The Village is a municipal corporation governed by an elected seven-member board. The financial statements of the Village of Inverness, Illinois (Village) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Village's accounting policies are described below.

Reporting Entity

Accounting principles generally accepted in the United States of America require the reporting entity to include (1) the primary government, (2) organizations for which the primary government is financially accountable, and (3) other organizations for which the nature and significance of their relationship with the primary government are such that the exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Based on these criteria there are no potential component units which should be included with the Village's financial statements nor is the Village considered to be a potential component unit of any other government.

Government-wide and Fund Financial Statements

Government-wide Financial Statements: The government-wide Statement of Net Position and Statement of Activities report the overall financial activity of the Village. Eliminations have been made to minimize the double counting of internal activities of the Village. The financial activities of the Village consist only of governmental activities, which are primarily supported by taxes and intergovernmental revenues.

The Statement of Net Position presents the Village's non-fiduciary assets and liabilities with the difference reported in three categories:

Net investment in capital assets consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds and other debt that are attributable to the acquisition, construction, or improvement of those assets, if any.

Restricted net position results when constraints placed on net position use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation. When both restricted and unrestricted resources are available for use, it is generally the Village's policy to use restricted resources first, then unrestricted resources as they are needed.

Unrestricted net position consists of net position that does not meet the criteria of the two preceding categories.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function (i.e. general government, public safety and public works) are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include (a) charges paid by the recipients of goods or services offered by the programs (including fines and fees), and (b) grants and contributions that are restricted to meeting the operational requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Village of Inverness, Illinois

Notes to Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

Fund Financial Statements: Separate financial statements are provided for governmental funds. The fund financial statements provide information about the Village's funds. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. The Village's major funds include the General Fund, the 2008 Bond Fund and the 2008 Project Fund. All remaining governmental funds are aggregated and reported as nonmajor governmental funds. The Village has no enterprise funds.

The Village administers the following major governmental funds:

General Fund – This is the Village's primary operating fund. It accounts for all financial resources of the general government. The services which are administered by the Village and accounted for in the general fund include general government, public safety, and public works.

2008 Bond Fund – This is the Village's debt service fund and will be used to retire the principal and interest payments on the Series 2008 General Obligation Bonds. Financing will be provided by a property tax levy.

2008 Project Fund – This is the Village's capital projects fund and will be used to record construction and road improvement related activities for various street projects. Financing was provided by issuance of \$9.5 million General Obligation Bonds, Series 2008.

Measurement Focus and Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flow takes place. Nonexchange transactions, in which the Village gives (or receives) value without directly receiving (or giving) equal value in exchange, include various taxes, State shared revenues and various State, Federal and local grants. On an accrual basis, revenues from taxes are recognized when the Village has a legal claim to the resources. Grants, entitlements, State shared revenues and similar items are recognized in the fiscal year in which all eligibility requirements imposed by the provider have been met.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Village considers revenues to be available if they are collected within 60 days of the end of the current fiscal year.

Significant revenue sources which are susceptible to accrual include property taxes, other taxes, grants, charges for services, and interest. All other revenue sources are considered to be measurable and available only when cash is received.

Expenditures generally are recorded when the liability is incurred, as under accrual accounting. However, compensated absences are recorded only when payment is due (upon employee retirement or termination). General capital asset acquisitions are reported as expenditures in governmental funds.

Village of Inverness, Illinois

Notes to Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Joint Venture - Solid Waste Agency of Northern Cook County (SWANCC)

SWANCC is a municipal corporation empowered to plan, finance, construct and operate a solid waste disposal system to serve its member municipalities. Management consists of a Board of Directors comprised of one appointed representative from each member. The Village does not exercise any control over the activities of SWANCC beyond its representation on the Board.

Budgets

Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. Annual appropriated budgets are adopted for all funds. All annual appropriations lapse at fiscal year-end.

Investments

Investments are reported at fair value based on quoted market prices.

Capital Assets

Capital assets which include land, buildings, improvements other than buildings, machinery and equipment are reported in the government-wide financial statements. Capital assets are defined as assets with an initial, individual cost of more than \$5,000, and an estimated useful life of two years or greater. Additions or improvements that significantly extend the useful life of an asset, or that significantly increase the capacity of an asset are capitalized. Expenditures for asset acquisitions and improvements are stated as capital outlay expenditures in the governmental funds.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the assets' lives are not capitalized.

Infrastructure assets acquired prior to May 1, 2004 are not capitalized as allowed for "Level 3" governments by GASB Statement No. 34.

Village of Inverness, Illinois

Notes to Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

Capital Assets (Continued)

Depreciation of capital assets is recorded in the Statement of Activities with accumulated depreciation reflected in the Statement of Net Position and is provided on the straight-line basis over the following estimated useful lives:

	<u>Years</u>
Buildings	50
Improvements other than buildings	15 – 50
Vehicles and equipment	2 – 10

Gains or losses from sales or retirements of capital assets are included in the operations on the Statement of Activities.

Short-Term Interfund Receivables/Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds" on the balance sheet. Short-term interfund loans, if any, are classified as "interfund receivables/payables."

Interfund Receivables/Payables

The Village has the following types of transactions between funds:

Loans and advances—amounts provided with a requirement for repayment. In the fund financial statements, interfund loans are reported as due from other funds in lender funds and due to other funds in borrower funds.

Services provided and used—sales and purchases of goods and services between funds for a price approximating their external exchange value. Interfund services provided and used are reported as revenues in seller funds and expenditures or expenses in purchaser funds. Unpaid amounts are reported as due to/from other funds in the fund balance sheets or fund statements of net position.

Reimbursements—repayments from the funds responsible for particular expenditures or expenses to the funds that initially paid for them. Reimbursements are reported as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund.

Transfers—flows of assets (such as cash or goods) without equivalent flows of assets in return and without a requirement for repayment. In governmental funds, transfers are reported as other financing uses in the funds making transfers and as other financing sources in the funds receiving transfers.

Village of Inverness, Illinois

Notes to Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

Deferred Revenue

The Village defers revenue recognition in connection with resources that have been received, but not yet earned.

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period.

Long-term Obligations

In the government-wide financial statements, long-term debt is reported as liabilities. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Debt service funds are specifically established to account for and service the long-term obligations for the governmental funds debt. Long-term debt is recognized as a liability in a governmental fund when due, or when resources have been accumulated for payment early in the following year. For other long-term obligations, only that portion expected to be financed with available financial resources (if any) is reported as a fund liability of a governmental fund.

Fund Balances

Governmental Accounting Standards Board Statement No. 54 (GASB 54), *Fund Balance Reporting and Governmental Fund Type Definitions*, established fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in the governmental funds. In addition, GASB 54 modified certain fund type definitions and provided guidance for classification of stabilization amounts on the face of the balance sheet. Pursuant to this guidance, the Village was required to report fund balances previously reported in the Solid Waste Fund and the Street and Bridge Fund (Non-major special revenue funds), as part of the General Fund.

Within the governmental fund types, the Village's fund balances are reported in one of the following classifications:

Restricted – includes amounts that are restricted to specific purposes, that is, when constraints placed on the use of resources are either: a) externally imposed by creditors (such as through debt covenants), grantors, contributions, or laws or regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislation.

Village of Inverness, Illinois

Notes to Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

Fund Balances (Continued)

Assigned – includes amounts that are constrained by the Village's *intent* to be used for specific purposes, but that are neither restricted nor committed. Intent is expressed by: a) the Village's Board itself; b) a body or official to which the Board has delegated the authority to assign amounts to be used for specific purposes. The Village's Board has not delegated authority to any other body or official to assign amounts for a specific purpose within the General Fund. However, certain assignments are approved by the Board within the Financial Plan. Within the other governmental fund types (special revenue, debt service, capital projects) resources are assigned in accordance with the established fund purpose and approved Financial Plan and appropriation. Residual fund balances in these fund types that are not restricted or committed are reported as unassigned.

Unassigned – includes the residual fund balance that has not been restricted, committed, or assigned within the general fund and deficit fund balances (if any) of other governmental funds.

Note 2. Legal Compliance and Accountability

Budgets

An annual budget is prepared for all Village Funds. The budget is prepared by fund, function and activity, and includes information on the past year, current year estimates and requested funding for the next fiscal year.

The proposed budget is presented to the governing body for review. On the basis of the approved budget, the appropriation ordinance is prepared. The governing body holds public hearings and may add to, subtract from or change appropriations.

The appropriation ordinance may be amended by the governing body. Expenditures may not legally exceed budgeted appropriations at the fund level. The appropriation ordinance was not revised or amended during the year.

The budget amounts in these financial statements reflect the Village's financial plan. These budget amounts are less than the legally enacted appropriation ordinance. As of April 30, 2013, expenditures in the 2008 Bond Fund and 2008 Project Fund exceeded the final budget amounts by \$269 and \$3,772, respectively. Total expenditures, however, did not exceed the appropriated amounts for these funds.

Note 3. Deposits and Investments

The Village maintains a cash and investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed on the balance sheet – governmental funds and the statement of net position as "cash and investments." In addition, investments are separately held by several of the Village's funds.

Permitted Deposits and Investments - Statutes authorize the Village to make deposits/invest in commercial banks, obligations of the U.S. Treasury and U.S. Agencies, insured credit union shares, money market mutual funds with portfolios of securities issued or guaranteed by the United States or agreements to repurchase these same obligations, repurchase agreements, short-term commercial paper rated within the three highest classifications by at least two standard rating services and The Illinois Funds. The Village does not have a policy that further limits its permitted deposits and investments. The Village adheres to the State statutes identified above and has not adopted any policies for cash and/or investments addressing custodial risk, interest rate risk or credit risk.

Village of Inverness, Illinois

Notes to Financial Statements

Note 3. Deposits and Investments (Continued)

Interest Rate Risk.

As of April 30, 2013, the Village had the following investments and maturities.

Investment Type	Fair Value	Maturities Less Than One Year
Illinois Metropolitan Investment Trust	\$ 581,261	\$ 581,261
Illinois Funds	5,123,586	5,123,586
Total	<u>\$ 5,704,847</u>	<u>\$ 5,704,847</u>

The Illinois Metropolitan Investment Trust and Illinois Funds are displayed as maturing in less than one year because the weighted average maturities of the individual pools are each less than one year.

The Illinois Metropolitan Investment Fund (IMET) and The Illinois Funds Investment Pool (IFIP) are not registered with the SEC. Oversight for IMET is provided by the IMET Board. The Board is responsible for policy formulation, as well as policy and administration oversight. IFIP is managed by the State of Illinois, Office of the Treasurer, which allows governments within the State to pool their funds for investment purposes. IFIP is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. For both pools, the fair value of the positions in the pool is the same as the value of the pool shares.

Credit Risk.

State law limits investments in commercial paper and corporate bonds to the top two ratings issued by nationally recognized statistical rating organizations (NRSROs). The Village does not have an investment policy that further limits its investment options. As of April 30, 2013, the Illinois Metropolitan Investment Fund (IMET) and the Illinois Funds Investment Pool (IFIP) were rated AAA by Moody's and Standard and Poor's, respectively.

Note 4. Receivables - Taxes

Property taxes for 2012 attach as an enforceable lien on January 1, 2012 on property values assessed as of the same date. Taxes are levied by December of the subsequent fiscal year (by passage of a Tax Levy Ordinance). Tax bills are prepared by the County and issued on or about February 1, 2013 and July 1, 2013, and are payable in two installments, on or about March 1, 2013 and August 1, 2013. The County collects such taxes and remits them periodically.

Village of Inverness, Illinois

Notes to Financial Statements

Note 5. Capital Assets

A summary of changes in capital assets for governmental activities of the Village is as follows:

	Balance May 1	Additions	Deletions	Balance April 30
Capital assets not being depreciated:				
Land	\$ 3,597,208	\$ -	\$ -	\$ 3,597,208
Capital assets being depreciated:				
Buildings	1,520,714	-	-	1,520,714
Improvements other than buildings	504,430	-	-	504,430
Vehicles and equipment	207,032	36,526	-	243,558
	<u>2,232,176</u>	<u>36,526</u>	<u>-</u>	<u>2,268,702</u>
Less accumulated depreciation for:				
Buildings	485,887	30,414	-	516,301
Improvements other than buildings	301,120	10,421	-	311,541
Vehicles and equipment	135,040	33,659	-	168,699
	<u>922,047</u>	<u>74,494</u>	<u>-</u>	<u>996,541</u>
Total capital assets being depreciated, net	<u>1,310,129</u>	<u>(37,968)</u>	<u>-</u>	<u>1,272,161</u>
Governmental activities capital assets, net	<u>\$ 4,907,337</u>	<u>\$ (37,968)</u>	<u>\$ -</u>	<u>\$ 4,869,369</u>

Total depreciation of \$74,494 was allocated as follows:

General government	\$ 53,688
Public safety	<u>20,806</u>
	<u>\$ 74,494</u>

Village of Inverness, Illinois

Notes to Financial Statements

Note 6. Interfund Activity

Individual interfund transfers for the Village at April 30, 2013, are shown as follows:

Fund	Detail	Transfers From Other Funds
Street and Bridge	Street repairs	<u>\$ 149,117</u>

Fund		Transfers To Other Funds
Motor Fuel Tax	Street repairs	<u>\$ 149,117</u>

Note 7. Risk Management

The Village is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; natural disasters; and injuries to the Village's employees. These risks, along with medical claims for employees and retirees, are provided for through a combination of purchased coverage and participation in public entity risk pool. The Village currently reports all of its risk management activities in its General Fund.

The Village has joined together with other local governments in Illinois to form the Municipal Insurance Cooperative Association (MICA). MICA is a public entity risk pool operating a common risk management and insurance program for its member governments. MICA maintains \$1,000,000 specific reinsurance contracts for a \$150,000 limit on property claims, \$200,000 limit on liability claims, \$500,000 limit on workers' compensation claims and a \$50,000 limit on crime claims. MICA also maintains a \$9,000,000 reinsurance contract for total loss aggregate of \$10,000,000. The Village pays an annual premium to MICA based upon a risk exposure formula and the Village's prior experience within the pool to cover potential claims from a fully funded loss amount of \$11,200,000. In addition, the Village pays the first \$1,000 for property, liability and crime claims. Amounts paid into the pool in excess of claims for any coverage year are rebated back to members in subsequent periods. The Village records such rebates as miscellaneous revenue in the General Fund in the year in which they are received.

Risks for medical and death benefits for current employees are provided through insurance purchased from private insurance companies. Retired employees are not eligible to participate.

There have been no reductions in the Village's insurance coverage for any of its programs since the prior fiscal year. Settlements have not exceeded insurance coverage during the current year or prior three fiscal years.

Village of Inverness, Illinois

Notes to Financial Statements

Note 8. Long-Term Obligations

The following is a summary of long-term obligation activity associated with governmental activities for the year ended April 30, 2013:

	Balance May 1, 2012	Additions	Retirements	Balance April 30, 2013	Due Within One Year
Capital Lease Payable	\$ 5,895	\$ -	\$ 5,895	\$ -	\$ -
General Obligation Bonds Payable*	8,075,000	-	515,000	7,560,000	540,000
Compensated Absences Payable	30,516	23,735	30,516	23,735	23,735
	<u>\$ 8,111,411</u>	<u>\$ 23,735</u>	<u>\$ 551,411</u>	<u>\$ 7,583,735</u>	<u>\$ 563,735</u>

* Amount reported in the statement of net assets for governmental activities includes an unamortized premium of \$9,900.

The following is a summary of debt transactions of the Village for the year ended April 30, 2013:

General Obligation Bonds – On December 15, 2008, the Village issued \$9.5 million general obligation bonds, series 2008, due in annual installments of \$465,000 to \$860,000 plus interest at variable rates ranging from 3.00% to 4.35% through December 1, 2023. The bonds were issued to provide funds for the improvement of infrastructure.

Capital Lease – On June 23, 2009, the Village entered into a capital lease agreement for the purchase of a multi-purpose vehicle. The lease requires four annual consecutive payments of \$6,313 (includes interest at 7.1%), through June 23, 2012. The General Fund was used to liquidate the capital lease.

As of April 30, 2013, debt service requirements to maturity on the outstanding debt, including interest, are as follows:

Year Ending April 30	Governmental Activities		
	Principal	Interest	Total
2014	\$ 540,000	\$ 294,570	\$ 834,570
2015	565,000	277,830	842,830
2016	590,000	259,185	849,185
2017	620,000	238,535	858,535
2018	650,000	215,595	865,595
2019-2023	3,735,000	669,345	4,404,345
2024	860,000	37,410	897,410
Total	<u>\$ 7,560,000</u>	<u>\$ 1,992,470</u>	<u>\$ 9,552,470</u>

Village of Inverness, Illinois

Notes to Financial Statements

Note 9. Commitments and Contingencies

Solid Waste Agency of Northern Cook County (SWANCC)

The Village has committed to pay its share of the annual operating costs and fixed costs of SWANCC. The Village's share of dual costs is expected to be funded through tipping fees paid by refuse haulers.

SWANCC has entered into Solid Waste Disposal Contracts with member municipalities. The Contracts are irrevocable and may not be terminated or amended except as provided in the Contract. Each member is obligated, on a "take or pay" basis, to purchase or in any event to pay for a minimum annual cost of the system.

The obligation of the Village to make all payments as required by this Contract is unconditional and irrevocable, without regard to performance or nonperformance by SWANCC of its obligations under this Contract.

The Village's contract with the Solid Waste Agency of Northern Cook County provides that each member is liable for its proportionate share of any costs arising from defaults in payment obligations by other members.

Intergovernmental Agreement

The Village is a member of the Northwest Central Dispatch System (NWCDS) which serves 11 municipalities. NWCDS is a consolidated, multi-jurisdictional emergency communications system that answers approximately 341,000 emergency telephone calls per year and dispatches about 180,225 police calls and 55,700 fire/EMS calls for member municipalities. It has an authorized staff of 86.

The Village remitted approximately \$166,000 to NWCDS for year ended April 30, 2013.

Note 10. Joint Ventures - Solid Waste Agency of Northern Cook County (SWANCC)

Description of Joint Venture

The Village is a member of the Solid Waste Agency of Northern Cook County (SWANCC) which consists of 23 municipalities. SWANCC is a municipal corporate and public body politic and corporate established pursuant to the Constitution of the State of Illinois and the Intergovernmental Cooperation Act of the State of Illinois, as amended (the Act). SWANCC is empowered under the Act to plan, construct, finance, operate and maintain a solid waste disposal system to serve its members. SWANCC is reported as a nonequity governmental joint venture.

Complete financial statements can be obtained from the Solid Waste Agency of Northern Cook County, 2700 Patriot Boulevard, Suite 110, Glenview, IL 60026.

In accordance with the joint venture agreement, the Village made payments of \$153,095 to SWANCC for the fiscal year.

Village of Inverness, Illinois

Notes to Financial Statements

Note 11. Employee Retirement Systems

Illinois Municipal Retirement

Plan Description

The Village contributes to the Illinois Municipal Retirement Fund (IMRF), which provides retirement, disability, annual cost of living adjustments, and death benefits to plan members and beneficiaries. IMRF is an agent multiple-employer public retirement system that acts as a common investment and administrative agent for local governments and school districts in Illinois. All employees, except those covered by the police and fire pension plans, hired in positions that meet or exceed the prescribed annual hourly standard, must be enrolled in IMRF as participating members. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained on-line at www.imrf.org or by writing to the Illinois Municipal Retirement Fund, 2211 York Road, Suite 500, Oak Brook, Illinois 60523.

Funding Policy

As set by statute, employer regular plan members are required to contribute 4.50 percent of their annual covered salary. The statutes require employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The employer contribution rate for calendar year 2012 was 14 percent of annual covered payroll. The Village also contributes for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Annual Pension Cost

The Village's annual pension cost of \$53,477 for the regular plan was equal to the Village's required and actual contributions. The information presented in this section is based on a calendar year. Information presented on the Village's fiscal year is not materially different.

Trend Information

<u>Year Ending</u>	<u>Annual Pension Cost (APC)</u>	<u>Percentage of APC Contributed</u>	<u>Net Pension Obligation</u>
12/31/10	\$ 52,916	100 %	\$ -
12/31/11	53,323	100	-
12/31/12	53,477	100	-

The required contribution for 2012 was determined as part of the December 31, 2010, actuarial valuation using the entry age normal actuarial cost method. The actuarial assumptions at December 31, 2010, included (a) 7.5 percent investment rate of return (net of administrative and direct investment expenses), (b) projected salary increases of 4.00% a year, attributable to inflation, (c) additional projected salary increases ranging from 0.4% to 10% per year depending on age and service, attributable to seniority/merit, and (d) post retirement benefit increases of 3% annually. The actuarial value of plan assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period with a 20% corridor between the actuarial and market value of assets. The plan's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open 30 year basis.

Village of Inverness, Illinois

Notes to Financial Statements

Note 11. Employee Retirement Systems (Continued)

Illinois Municipal Retirement (Continued)

Funded Status and Funding Progress

As of December 31, 2012, the most recent actuarial valuation date, the Regular plan was 79.78 percent funded. The actuarial accrued liability for benefits was \$1,122,012 and the actuarial value of assets was \$895,192, resulting in an underfunded actuarial accrued liability (UAAL) of \$226,820. The covered payroll (annual payroll of active employees covered by the plan) was \$382,528 and the ratio of the UAAL to the covered payroll was 59 percent.

The schedule of funding progress, presented as RSI following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Note 12. Other Employee Benefits

The Village has established a Police Pension Fund for sworn officers in accordance with Illinois Compiled Statutes (40 ILCS 5/3 et seq.). At the present time, no officers have applied to participate in the Fund. As an alternative for sworn officers who do not make written application to the Police Pension Fund, the Village has established a section 401(a) savings plan, referred to below.

During fiscal year 2009, in conjunction with establishing a new police department, the Village established a section 401(a) savings plan (Plan) for its qualified police officers. The Plan is a defined contribution retirement savings plan established to provide benefits at retirement to police officers employed by the Village. Full-time police officers hired by the Village that do not make written application to participate in the police pension fund of the Village and subsequently become ineligible for participation may participate in the Village's 401(a) Plan.

As of April 30, 2013, thirteen officers were participating in the Plan. The Plan requires an initial and irrevocable election as to mandatory employee contributions (from 0% - 20% of covered payroll) and the Village contributes 10% of covered payroll. Plan provisions and contribution requirements of the Village were established, and may only be amended by the Village Board. Total Village contributions for the year ended April 30, 2013 were \$92,479.

Other than IMRF and the 401(a) savings plan, the Village offers no other post employment benefits to its employees.

Village of Inverness, Illinois

Notes to Financial Statements

Note 13. New Governmental Accounting Standards

The Governmental Accounting Standards Board (GASB) has issued the following statements:

GASB Statement No. 61, *The Financial Reporting Entity: Omnibus—an amendment of GASB Statements No. 14 and No. 34*, will be effective for the Village beginning with its year ending April 30, 2014. The objective of this Statement is to improve financial reporting for a governmental financial reporting entity. The requirements of Statement No. 14, *The Financial Reporting Entity*, and the related financial reporting requirements of Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*, were amended to better meet user needs and to address reporting entity issues that have arisen since the issuance of those Statements.

GASB Statement No. 65, *Items Previously Recorded as Assets and Liabilities* reclassifies, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources (expenses) or inflows of resources (revenues), items that were previously reported as assets or liabilities. This will be effective for the Village for the year ending April 30, 2014.

GASB Statement No. 66, *Technical Corrections-2012—an amendment of GASB Statements No. 10 and No. 62*, resolves conflicting guidance that resulted from the issuance of GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, and No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*. This Statement removes the provisions that limits fund based reporting of risk financing activities. This Statement also modifies specific guidance on accounting for certain operating leases and certain loans. This will be effective for the Village for the year ending April 30, 2014.

GASB Statement No. 67, *Financial Reporting for Pension Plans*, will be effective for the Village beginning with its year ended April 30, 2015. This statement builds upon the existing framework for financial reports of defined benefit pension plans, which includes a statement of fiduciary net position (the amount held in a trust for paying retirement benefits) and a statement of changes in fiduciary net position. This statement enhances note disclosures and RSI for both defined benefit and defined contribution pension plans and requires the presentation of new information about annual money-weighted rates of return in the notes to the financial statements and in 10-year RSI schedules.

GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, will be effective for the Village beginning with its year ended April 30, 2016. This statement requires governments providing defined benefit pensions to recognize their long-term obligation for pension benefits as a liability for the first time, and to more comprehensively and comparably measure the annual costs of pension benefits. This statement also enhances accountability and transparency through revised and new note disclosures and required supplementary information (RSI).

GASB Statement No. 69, *Government Combinations and Disposals of Government Operations* will be effective for the Village beginning with its year ended April 30, 2015. This Statement establishes accounting and financial reporting standards related to government combinations and disposals of government operations. As used in this Statement, the term government combinations include a variety of transactions referred to as mergers, acquisitions, and transfers of operations.

Village of Inverness, Illinois

Notes to Financial Statements

Note 13. New Governmental Accounting Standards (Continued)

GASB Statement No. 70, *Accounting and Financial Reporting for Nonexchange Financial Guarantees*, will be effective for the Village with its year ended April 30, 2015. This statement requires a government that extends a nonexchange financial guarantee to recognize a liability when qualitative factors and historical data, if any, indicate that it is more likely than not that the government will be required to make a payment on the guarantee. This Statement requires a government that has issued an obligation guaranteed in a nonexchange transaction to recognize revenue to the extent of the reduction in its guaranteed liabilities. This Statement also requires a government that is required to repay a guarantor for making a payment on a guaranteed obligation or legally assuming the guaranteed obligation to continue to recognize a liability until legally released as an obligor.

Management has not fully determined the impact these Statements will have on its financial statements; however, Statement No. 68 is expected to have a material impact.

Note 14. Related Party Transactions

The Village has entered into an agreement for legal services with Levin Ginsburg related to specific litigation. The law firm employs a member of the Mayor's family. As of April 30, 2013, the Village had remitted \$8,670 to the law firm for legal services.

Village of Inverness, Illinois

Schedule of Legal Debt Margin

April 30, 2013

The Village is a home-rule municipality.

Article VII, Section 6(k) of the 1970 Illinois Constitution governs computation of the legal debt margin.

"The General Assembly may limit by law the amount and require referendum approval of debt to be incurred by home rule municipalities, payable from ad valorem property tax receipts, only in excess of the following percentages of the assessed value of its taxable property... (2) if its population is more than 25,000 and less than 500,000 an aggregate of one percent:....indebtedness which is outstanding on the effective date (July 1, 1971) of this constitution or which is thereafter approved by referendum....shall not be included in the foregoing percentage amounts."

To date, the General Assembly has set no limits for home-rule municipalities.
